Food from Nature

CATALOGUE

Valle del Sole

Fine food is a present from Nature

From the heart of the lush and sunny Italian valleys, we pick up the best raw materials every day and transform them into delicacies known all over the world as a symbol of genuineness and taste. For us, the concept of nature is more than a philosophy, which is expressed in the care and love of our territory and which you can rediscover through the entire Valle Del Sole product range.

Enjoy now our exclusive Organic Food Selection: organic products are free from chemicals and also pesticides

residues. Not containing these elements, organic products do not oblige the body to metabolize these foreign compounds. This generates a minor stress for our body and so more energy availability.

Organic certified by

Valle del Sole

TOMATOES

100% Italian, processed a few hours after the harvesting, selected and followed in its growth with constant checks that ensure its genuineness and a perfect maturation. This is our tomato, undisputed cornerstone of the Mediterranean diet that bring the joy and warmth of the summer sun to your table with a full and decisive flavor. Enjoy it in its different texture to prepare nice sauces, soups, condiments or delicious appetizers.

PASTA

Italian Pasta is probably the best known Italian food in the world. This is not only because it represents a formidable source of energy, fiber and protein. Together with its properties, pasta brings the pleasure of being together and the values of "love" and "home" to the tables of millions of families around the world every day. Available in many different formats to always guarantee exceptional first courses.

Valle del Sole

A brief guide to Pasta Shapes

When we talk about pasta shapes, we talk about a centuries-old tradition that is maintained to this day carefully. In general we can say that **Long Shapes** and **Short Shapes** are very good with pasta sauces, but only long shapes match perfectly also with a nice seafood based sauce. With **Soup Shapes** you

can prepare delicious soups, of course, and they will be highly appreciated by your children! Last but not least **Special Shapes** are the real "game changer": serve them in your special occasion or whenever you want to bring all the authentic Italian tradition on your table and sharing it with your loved ones.

OIL & VINEGAR

Oil is unanimously considered “the gold of Mediterranean” and Italy is one of the most important producers in the world. Our olive trees produce a green and fruity oil, which intense fruity taste, rich of olfactory notes and a slightly spicy taste, lasts for a long time. Extraordinary in the kitchen, the Balsamic Vinegars of Modena Valle Del Sole are the result of a delighted blend between selected grape musts and precious wine vinegar.
